Overview

Significant federal involvement in permanent recognition of the final resting place of deceased U.S. military personnel began with the establishment of the first national military cemeteries in 1862. This research guide focuses on records of headstones provided for U.S. military veterans buried in *nonfederal cemeteries*, 1879 and later; NARA has records for 1879–1985. Some of the record series in this handout are also relevant to burials in *certain federal cemeteries* (those at military posts or national soldiers' homes).

Important Definitions

- Nonfederal (“private”) cemeteries** Any cemetery maintained by a state, county, city, village, township, church, family, or private organization.
- Post cemeteries** Cemeteries at military posts (forts, etc.). Headstone applications for veterans buried at post cemeteries are often interfiled with those for private cemeteries.
- National cemeteries** Federally operated. Originally established for Civil War dead; burial privilege later extended to all honorably discharged veterans. Also called National Military Cemeteries. Discussion of the records related to these burials is beyond the scope of this research guide.

Records Timeline. Records in the National Archives are arranged by Record Group (RG) then in the manner in which the creating agency arranged and maintained the records.

Headstone Records—Online Records

These records relate to headstones requested for veterans buried in private (nonfederal) cemeteries and at national homes for disabled volunteer soldiers.

1879–1903 **National Archives Microfilm Publication M1845, *Card Records of Headstones Provided for Deceased Union Civil War Veterans, ca. 1879–ca. 1903***. 22 rolls. Over 166,000 records. Includes some War of 1812 veterans. 3-inch by 4-inch cards arranged alphabetically by name. They include some or all of the following information about each soldier: rank, company, and regiment; place of burial, including the cemetery's name, and the city or town, county, and state in which it is located; grave number, if any; date of death; name of contractor who supplied the headstone and the date of the contract under which the stone was provided. Most burials occurred in private cemeteries, but some were at National Homes for Disabled Volunteers Soldiers.

Sometime in the past, a paper cutter was used to cut off, en masse, the top one-eighth inch of each card. The upper parts of some names were cut off; as a result, they may be difficult to read. Sometimes the names were re-written below the original writing of the name.

Special note: Be sure to also check **Series 594** (described under textual records), since there may be an additional record.

1925–1941 **National Archives Microfilm Publication M1916, *Applications for Headstones for U.S. Military Veterans, 1925–1941***. 134 rolls. Contains over 290,000 applications.

Arranged alphabetically by name. Most died during 1925–41, but also includes many veterans who died before 1925, including Civil War Union and Confederate veterans, and a few Revolutionary War soldiers. Indians are filed separately in a section called "Indian Scouts." Several versions of the application, OQMG Form No. 623, were used. Quartermaster personnel annotated the front of the form with corrections to the veteran's name and military service to ensure the information on the headstone would be consistent with information in government records. Be sure to also check **Series 1942** (described under textual records), since there may be additional records.

- Available online at *Ancestry.com* as part of the "Headstone Applications for Military Veterans, 1925-1963" database. Most applications are online twice: Black and white images were scanned from the microfilm; color images were scanned from the original paper records.
- Available online at *FamilySearch.org* in database "United States Headstone Applications for U.S. Military Veterans, 1925-1949" at <https://www.familysearch.org/search/collection/1916249>

1941–1949 **National Archives Microfilm Publication M2113, *Applications for Headstones for U.S. Military Veterans, 1941–1949***. 278 rolls. Contains over 331,000 applications. Most died during 1941–49, but there are also some for veterans who died before 1941. Most served in World War I or World War II, but there are also veterans of earlier eras, including Union and Confederate Civil War veterans. Indians are filed separately in a section called "Indian Scouts." Applicants used various versions of the application - OQMG Form No. 623 - printed between 1931 and 1949. Quartermaster personnel annotated the front of the form with corrections to the veteran's name and military service to ensure the information on the headstone would be consistent with information in government records.

Arranged by order number (sometimes referred to as "office mark"). Multiple gravestones are sometimes listed under one order number. Information given: name, rank, company, regiment, date of death, cemetery, and state.

The date the headstone was ordered is not indicated. These lists were originally in an envelope but at some time (before coming to the National Archives) were pasted into these volumes. The fact that the lists are typed suggests the lists were compiled after 1910. Duplicate lists were pasted facing each other. Vol. 1, pp. 1–62, military posts; pp. 62–90, private cemeteries, California–Kansas. NOTICE TO APPLICANT

Fill out blank on typewriter, if possible. If not, print name of decedent in ROMAN CAPITAL letters.

Be careful to spell correctly the name of soldier or other person for whose grave headstone is desired; if he served under an assumed name, both the true name and the alias must be given.

Write the first or given name in full if known, as Charles T. Jones instead of C. T. Jones.

Where soldier served with State troops, the State and arm of service (whether infantry, cavalry, or artillery) should be given; and in the case of a sailor or marine, the name of one or more vessels on which he served, and the approximate date of enlistment is required. The approximate dates of enlistment and discharge should also be given where the soldier served in the Regular Army.

By carefully observing these directions and giving the information called for in each column delay will be avoided.

OFFICERS OR COMMITTEES OF G. A. R. POSTS, AMERICAN LEGION POSTS, AND OTHER PERSONS having charge of securing headstones for soldiers buried in their vicinity should ascertain before ordering headstones whether or not the relatives or friends of the soldiers desire them, or whether they intend to erect private monuments.

Applications for headstones, the receipt of which has been once acknowledged by this office, **should not be duplicated**; the headstones will be furnished as soon as practicable.

If practicable, mail without folding.

Upon application to the Quartermaster General, U. S. Army, Washington, D. C., headstones will be furnished for unmarked graves of soldiers, sailors, marines and Army nurses who served in the Army or Navy of the United States during any war or insurrection (including the Revolution), whether regular or volunteer, and whether they died in the service or since their muster out or discharge therefrom.

Civil and Spanish War headstones are of American white marble, 39 inches long, 12 inches wide, and 4 inches thick. Top is slightly rounded, with inscription cut within a sunken shield.

World War headstones are of American white marble, 42 inches long, 4 inches thick, and 13 inches wide throughout. Each stone has a circle 2½ inches in diameter on the front face, near the top, in which will be cut an emblem of religious faith—emblem to be either a Latin cross or the Star of David (six-pointed star indicating Hebrew faith), as desired. The inscription will consist of the full name of the soldier, his rank, his division, his company, his home town, his State from which he came, his rank, regiment, division, and date of death.

No deviation can be made from these specifications. The law does not provide for any expenditure for fences or for any other purpose except for the headstones, nor money allowance in lieu of furnishing headstones.

Headstones will be shipped, freight prepaid by the Government, only to the nearest railroad station or steamboat landing; they will not be delivered to street addresses or to the cemetery.

No fee should be paid in connection with this application.
